CONTEMPORARY

Contemporary Style Bathroom

Clean lines, clutter-free expanses of open space, and minimalist adornment are all hallmarks of contemporary style bathrooms. Expect to see plenty of polished hardwood, metal accents, and a clean and simple color palette in this type of décor.

Light and dark elements are often used together to create visual contrast. Simplicity is at the heart of contemporary styling, and the focus is on the details. Look closely for high-quality door pulls and knobs made from muted brushed metals in addition to countertops and flooring constructed from durable stone, wood, or tile.

Bathroom Accessories

Open space, straight lines, clutter-free. Emphasis is on the beauty and quality of the materials used throughout the setting. Clean, fuss-free environment.

TRADITIONAL

Traditional style bathrooms

emphasize **comfort, functionality, and practicality.**

Classic colors punctuate this design setting. Polished wood, complementary colors, and the usage of glass, tile, and marble are all integral parts of traditional bathrooms.

Typically neutral in tone, traditional bathrooms are comfortable, relaxing, and inviting.

MORDERN

Modern Style Bathrooms

Modern style bathrooms are bold, strong, and simple with clean and straight lines and an absence of clutter.

Straight lines are a defining feature of modern styling bathrooms and are exhibited in countertops, sinks, and even artwork.

Top quality materials such as stone, porcelain, teak, and marble are common elements of modern design, in addition to small pops of color from art or fresh greenery.

Crisp, clean, sparse, and minimally appointed. Bold colors, chrome accents, high contrast elements.

Bathroom Accessories

TRANSITIONAL

Transitional Style Bathrooms

Transitional style bathrooms encompass the best of both worlds in that the style utilizes both old and new design elements.

Wood, stone, glass, and exotic finishes are not uncommon in these types of bathrooms. Unique details such as patterned floors, dark-finished metals, and artisan door handles will all find a place in the Transitional style décor scheme.

Transitional styling aims to achieve both functionality and practicality alike.

Bathroom Accessories

Best of both worlds. Mixes a little bit of the old with a little bit of the new. Traditional yet modern

Scandinavian

Scandinavian Style Bathrooms

Scandinavian style bathrooms are about simplicity, elegance, and functionality.

An emphasis is placed on clean lines and an overall uncomplicated and easygoing casual aesthetic.

Dark and light colors are used in a complementary fashion to unify design components and create cohesion.

Bathroom Accessories

INDUSTRIAL

Utilitarian cool. Chrome. Metal. Minimalist colors like black and white with small pops of contrasting color

Industrial Style Bathrooms

Similar to modern style bathrooms, industrial style is about minimalism, bold colors, high contrast pairings, and a coolly pervasive element of sleekness and simplicity.

Mixed woods, white accents, and marble countertops are common design elements.

Notice the crisp white subway tiling in this primary bathroom picture and how it contrasts so crisply with dark brown wood, along with the warmer hued brown of the floor.

Bathroom Accessories

TROPICAL

Tropical Style Bathrooms

Tropical style bathrooms usually feature a simple design aesthetic with a focus on lush green foliage and the top quality craftsmanship of the materials used throughout the bathroom.

Expect to see an exotic stone or polished wood floors, open ceiling beams, plenty of greenery, and raw detailing with a natural flair.

Open layouts offering copious amounts of light and space are typical of these bathroom styles.

Airy, plenty of light, green plants, white accents, jute, exotic woods, minimal ornamentation

Bathroom Accessories

VINTAGE

Retro or vintage design refers to a broad range of graphic design styles which lift influences and inspiration from different historical eras and retro style design, from mid-century modern graphic design and 50s art styles to vintage 70s graphic design.

Golden calligraphic design elements on black background.

Grungy white background of natural cement or stone old texture as a retro pattern wall. conceptual wall banner, grunge, material, or construction.

The way you perceive something as appearing 'vintage' or 'old-fashioned' is conditioned by three factors— nostalgia, perception of age, and visual style.

These three factors combine to create a vintage design that looks in some way historical or retro.

RETRO

Retro Style Bathrooms

Retro style in interior design is bizarre forms and combinations of colors and textures, brightness and originality: plastic figurines and vinyl records, paintings and photographs of cities, lava lamps and lip-sofas, a combination of glass, plastic, metal, and synthetics (primarily artificial leather and velvet), beaded curtains and asymmetrical designs.

The retro design style of the hotel apartments means comfort, ostentatious glamour, and cheerful mood.

Furniture of unusual shape, beaded curtains, old-fashioned decor figurines, posters movies with action heroes of last years, bright colors – all these creates a special mood of retro style: bright and warm.

Diamond Shape Knurled, Decent Luxury

Rhombus, In plane Euclidean geometry, a rhombus (plural rhombi or rhombuses) is a quadrilateral whose four sides all have the same length.

Another name is equilateral quadrilateral, since equilateral means that all of its sides are equal in length.

The rhombus is often called a 'diamond', after the diamonds suit in playing cards which resembles the projection of an octahedral diamond, or a lozenge (shape), though the former sometimes refers specifically to a rhombus with a 60° angle (which some authors call a calisson after the French sweet – also see Polyiamond), and the latter sometimes refers specifically to a rhombus with a 45° angle.

We bring diamond to our products design, with rhombus elements, knurled on the products, a decent luxury to enrich your space.

The semiprecious knurled knob faucet set and bathroom accessories, establishes the stylistic direction for the bath. You can also find same design from all ranges of our products.

KNURLED

The knurled design makes it decent to fullfill your bathroom of luxury.

The cylindrical shape of the bathroom accessories and faucet has fluid lines and soft curves punctuated by hash mark-textured knurling on the spout tip and handles, a stylistic nod to precision tools.

SQUARE

Square Is Very Fashion

When you have a square living room and bathroom, make sure the elements in your room are perfectly placed. Use a rectangle or square shaped bathroom accessories, faucet, bathtub, mirror and even the drainer, for living room, use the rug and sofa set in the right size for your room.

The color of the walls of a square living room should not be in a darker shade.

This would make the room look open and spacious.

Does Stainless Steel Rust ?

Stainless Steel Can Rust

Corrosion and rusting can happen to any material under certain circumstances. Including 314 or 316 stainless steel.

Due to its complicated application environment, the simple chromium oxide passivation film cannot meet the needs of highly corrosion-resistant environment, such as beach side, hot spring area, etc.

But, even though it can corrode and rust, that doesn't mean stainless steel is a poor option. It just needs proper maintenance.

Stainless Steel Maintenance

We already know that 316 stainless steel can last a long time on its own. But, maintaining it properly is the best way to get the longest shelf life out of it.

The chromium in 316 steel creates a film on the surface that protects the metal from harsh conditions. This film can be damaged by scratching or other outside sources. One of the first signs of this process is surface rust.

Surface rust isn't a problem. It can be removed rather easily. And that's the first step of maintaining 316 steel. Keep the steel surface clear of any surface rust.

In addition to the above protections, you can wash stainless steel with mild soap and water. This will keep your stainless steel in tip-top shape for a long time to come.

The easy use and cleaning of 316 Marine Grade stainless steel makes it a great product to use in your home.

Because of the higher concentration of pure elements like nickel and chromium, 304, 316 stainless steel can handle things other steels can't.

OCEAN STYLE

Strong As Anchor

Modern coastal decorating blends a subtle sophistication with the traditional rustic elements of seaside living.

Comfortable, yet modern, chairs nestle snugly against a well-used table with tattered edges.

Sailboats on a deep blue ocean bring the ocean living up onto the walls.

Lantern-like lighting reinforces this coastal sophistication.

VINTAGE

Retro or vintage design refers to a broad range of graphic design styles which lift influences and inspiration from different historical eras and retro style design, from mid-century modern graphic design and 50s art styles to vintage 70s graphic design.

Golden calligraphic design elements on black background.

Grungy white background of natural cement or stone old texture as a retro pattern wall. conceptual wall banner, grunge, material, or construction.

The way you perceive something as appearing 'vintage' or 'old-fashioned' is conditioned by three factors— nostalgia, perception of age, and visual style.

These three factors combine to create a vintage design that looks in some way historical or retro.

RETRO

Retro Style Bathrooms

Retro style in interior design is bizarre forms and combinations of colors and textures, brightness and originality: plastic figurines and vinyl records, paintings and photographs of cities, lava lamps and lip-sofas, a combination of glass, plastic, metal, and synthetics (primarily artificial leather and velvet), beaded curtains and asymmetrical designs.

The retro design style of the hotel apartments means comfort, ostentatious glamour, and cheerful mood.

Furniture of unusual shape, beaded curtains, old-fashioned decor figurines, posters movies with action heroes of last years, bright colors – all these creates a special mood of retro style: bright and warm.

PMMA/ACRYLIC

Poly(methyl methacrylate) belongs to a group of materials called engineering plastics.

It is a transparent thermoplastic.

PMMA is also known as acrylic, acrylic glass, as well as by the trade names and brands Crylux, Plexiglas, Acrylite, Astariglas, Lucite, Perclax, and Perspex, among several others.

This plastic is often used in sheet form as a lightweight or shatter-resistant alternative to glass.

It can also be used as a casting resin, in inks and coatings, and for many other purposes.

We introduced this decent materials to our bathroom, such a crystal and transparent material, not like the normal hard, cold metal things.

MIRROR POLISH ON SUS

Mirror polishing is classified into mechanical mirror polishing and chemical solution mirror polishing.

Mechanical mirror polishing is a polishing process (rough grinding, fine grinding) on metal material to achieve a smooth, shiny mirror-like surface.

The chemical solution mirror polishing is performed by using a chemical solution to remove the surface oxide scale to achieve a brightening effect.

Mirror polishing depends on the level of finish. It is directly understood as smooth like a mirror, below Ra0.2, etc. It is usually used in polishing stainless.

BLACK IN FASHION

Just Round Tube Make It So Practical

We all love black. It never goes out fashion. This is the number one destination to read about the latest fashion trends and inspiration that are all black.

Black Fashion.

"Black is modest and arrogant at the same time.
Black is lazy and easy — but mysterious.
But above all black says
this: I don't bother you — don't bother me."

— Yohji Yamamoto.

MORDERN

Modern Style Bathrooms

Modern style bathrooms are bold, strong, and simple with clean and straight lines and an absence of clutter.

Straight lines are a defining feature of modern styling bathrooms and are exhibited in countertops, sinks, and even artwork.

Top quality materials such as stone, porcelain, teak, and marble are common elements of modern design, in addition to small pops of color from art or fresh greenery.

Crisp, clean, sparse, and minimally appointed. Bold colors, chrome accents, high contrast elements.

PVD ROSE GOLD

Stainless Steel in Bathrooms

Rose gold is a mixture of yellow gold, copper and silver. The copper gives it a redder colour than yellow gold naturally has.

What is referred to as Rose Gold now, however, is quite often not gold at all but a PVD coated stainless steel or other substrate. The advantages of PVD are that it is more resistant to flaking than electro-plating and of course more eco-friendly as vats of acid are not required! In fact there are no chemicals used in the creation of PVD coatings.

Bathroom Accessories

WOOD, GLASS, ACRYLIC

Using wood in the bathroom enables a mix of materials to create depth and warmth across different materials and styles.

This concrete wall might have appeared cold and heartless were it not for the soaring rafters and V-joint roof decking above.

In fact, you can do amazing things with wood, even in the bathroom. The way it feels, sounds and even reflects light is wonderful. It also offers color and depth, and can soften the look of hard ceramic finishes.

Think creatively. We are using wood to bathroom products, combine with metal, glass, a unique feeling and taste.

FUNCTIONALITY

Toilet Paper Holder With Shelf

Tissue holder with shelf is so helpful in the bathroom. Most of the times, people go to the bathroom with their phones and use that time to chat or catch up with the latest news on social media. Well, when you are done using the phone, it's not a very good idea to place it on the floor. On the other hand, it is very inconveniencing to have to place it inside your pocket because it might even fall off. That's where the mobile phone storage shelf comes in, making this roll holder very practical.

Additionally, this shelf is not only meant for phones. You can place soap or even your keys there as you use the toilet.

SERIES

TRASH CAN/DUST BIN

Removable Inner Bin: Removable inner liner with a stainless steel handle lifts out for easy dumping garbage without using grocery plastic bags and easy rinsing the whole small garbage can.

Soft Close Lid: Lid shock technology makes the lid automatically, slowly and softly close with controlled closure, so it doesn't slam down and make a sound.

Size and Capacity: we offer 3L/0.8Gal, 5L/1.3Gal, 12L/3Gal. 3L/0.8Gal mini trash can is suitable for narrow areas, such as bedroom, kids room, office, toilet, desk, countertop or corner. Please check the product size from the picture before ordering it. The foot pedal with rubber surface has been upgraded to stainless steel foot pedal.

Anti-Fingerprint : The trash can with lid is made out of high-quality commercial-grade carbon steel to resist fingerprint and rust.

BATHROOM NICHE

Such A Simple Yet Unique Design

The niche or the recessed shelf in one of the walls of the shower cubicle is what we call a shower niche.

It has to be deep enough to hold bottles of shampoo, shower gel, loofah's, and razors and yet look elegant and amazing.

A shower niche is one such helpful design to the bathroom wall that can help declutter and organize an otherwise crowded and unorganized bathroom and shower cubicle.

It is such a simple yet unique design that we wonder why we did not think about having something like this in our bathrooms around a decade ago.
